

TEST PLAN

SauceDemo Login Page Testing

Website: [SauceDemo](#)

1. Objective

The objective of this testing is to check whether the login page is working properly. The user should be able to log in successfully using valid credentials, and proper error messages should be shown for invalid inputs.

2. Features to Test

- Username field
- Password field
- Login button
- Error messages
- Login with valid credentials
- Login with invalid credentials

3. Testing Type

- Manual Testing
- Functional Testing
- UI Testing

4. Test Environment

Item	Details
Browser	Google Chrome
Operating System	Windows 11
Device	Laptop

5. Test Data

Valid Credentials

- Username: standard_user
- Password: secret_password

Invalid Credentials

- Username: wrong_user
- Password: wrong_password

6. Sample Test Cases

TC ID	Test Scenario	Expected Result
TC01	Login with valid credentials	User should log in successfully
TC02	Login with invalid credentials	Error message should be displayed
TC03	Leave username field empty	Validation message should appear
TC04	Leave password field empty	Validation message should appear
TC05	Leave both fields empty	Validation message should appear

7. Expected Result

- The login page should work properly
- Correct error messages should be displayed for invalid inputs
- Users should be able to log in successfully using valid credentials
